Salvation Army Drowns Out Socialist Speaker; Latter Spirited Away

(By Associated Press.)
Mason City, Ia.—Ida Cronin Hazlett, socialist speaker who was taken from a boat on the Mississippi river, where she was to make a speech Tuesday night, and whose boat was burned in a public house after a band of men had spirited her away to a lonely spot on a country road near Nora Springs, returned to Mason City late Tuesday night. She was put out of a car near a farm house and left there. Claiming that she had been abducted, she persuaded the farmer to bring her back to Mason City.
Mrs. Hazlett threatened to make another speech in Central park Wednesday night. A group of socialists held a meeting and made preparations to defend her should she be molested Wednesday night.
Mrs. Hazlett was in the middle of her speech when the Salvation Army, which had been holding forth on the street a half block away, marched over to where the socialist speaker was speaking and drowed her out with a volley on the drums. When a few of her sympathizers defended her and when one attempting to pull down the flag carried by the Salvation Army, a riotous encounter took place and two of her friends were knocked down, while men grabbed the speaker and escorted her to a waiting automobile. A police officer, who had asked him for police protection and permission to use the park.
"I denied her both," said the mayor. "and told her that Mason City was no place for her to appear. I told her she was one of the agitators we could well afford to do without."

SAY CAPRON WROTE BAD CHECKS HERE

Former Samson Star Now Held in West on Fraud Charge.
Declaration that two checks of \$100 each drawn upon a local bank by Ralph E. Capron, former Samson tractor manufacturer, who was arrested in Long Beach, Cal., Tuesday on charges of fraud, were not honored because of lack of funds was made here Wednesday by a local bank official. In a letter to the Chicago Tribune, Capron is said to have kept an account while living in Janesville.

According to a dispatch printed in the Gazette Tuesday, Capron was arrested at that time at one of the highest paid players on the team, his salary being \$400 a month, it is reported. Although he came back here early in the morning, he was not wanted by Manager George Fetter, who said he had signed up a better player.
In a conclusion of last year's baseball season, Capron remained here for several months. He had visions of organizing a professional football team here but the plan fell through.
Capron went from here to Florida by automobile for a few months, returning to Janesville for a short time. He was then arrested in California, where he said he expected to play baseball.

It is understood that Capron is the son of a Minneapolis banker. While here last summer, Capron was called to Minneapolis to stand trial in a suit said to have been brought against him by a Minneapolis girl whom it was declared he had run down in his automobile. The outcome of the suit was never learned.

In 1915, Capron played with the Milwaukee American association team. He also played professional ball in Pittsburgh and Philadelphia.

HOW THE GAZETTE SCOOPED BRITISH ON NEWS STORY

On Tuesday, August 16, the Gazette announced that Great Britain had asked to have the United States enter the Anglo-Japanese alliance. On the 19th Lloyd George in a speech in the House of Commons officially disclosed the British attitude, and that the United States was invited into the Anglo-Jap alliance.
Readers of the Gazette were in possession of the latest piece of international information of the year three days ahead of the general public.
This is due to the fact that the Gazette daily prints the telegraphed letters of David Lawrence. It is rather pleasing for the readers of the Gazette to know that they are given the same advantages in the news that readers of great metropolitan papers have.
You may not agree with all David Lawrence says but he is always interesting and in almost every case it will be found that his deductions are correct.

FRENCH BALKED BY MORGAN, IS CLAIM

Financier Warned Banks Against Alleged Swindle, Is Testimony.
Chicago.—The name of J. P. Morgan, Wednesday, brought into the investigation of the operations of Charles W. French and other members of an alleged band of swindlers, arrested here last week, according to testimony given by those caught in a raid of federal agents on French's suite in a loop hotel.

Least told Cal. John Clinman, assistant United States district attorney, that French came into conflict with Morgan when he tried to raise capital in England several years ago to develop one of his projects—iron ore in the Pacific coast.
Morgan, according to Clinman's testimony, warned English and American banks against the scheme.
The manipulations of French and associates, it is declared, are the most audacious ever uncovered by federal agents and included banking schemes, bond manipulations, stock transactions and various business enterprises.

Federal agents left for Milwaukee Wednesday afternoon, with Alvin Karpis, former private secretary to French, who has promised to bring a change of ideas to the federal government and turn over all the office files and papers covering many of the band's deals.
If the information Karpis has given is correct, Clinman said, "it will blow the lid off French's entire operations and will stirle the country."

Train Conductors to be Arrested—One Already in Court Here.
One St. Paul railroad conductor has been arrested here and more will be taken to court for allowing trains to block grade crossings, it was learned here Tuesday. The Chicago Police Charles Newman, stated Wednesday.

"This tie-up of traffic, so long a nuisance here, is going to be stopped," Newman said. "It blocks the trains on the tracks of both roads going through Janesville," the chief declared.

EXTRA! 44 Yanks and Britons Perish in Air Tragedy

Terrific Blast Shatters Gigantic Airship, Purchased by U. S. from England, on Trial Trip; Hull Citizens in Panic as Debris Descends.
(By Associated Press.)
London.—The giant airship, ZR-2, purchased by the United States from Great Britain, exploded over the city of Hull Wednesday. Forty-four of the crew of 49 are believed to have perished. Five of the crew are known to have been saved. It is learned that the American officers on board the dirigible were Commander Louis H. Maxfield, Washington, D. C.; Lieut. Commander V. N. Bieg, Blyn-Mawr, Pa.; Lieut. Commander Emory Coll, Marietta, O.; Lieut. M. H. Esterly, Washington, D. C.; Lieut. Henry W. White, Clearwater, Fla., and Lieut. Charles G. Little, Newburyport, Mass.

Bodies are being taken from the river by a swarm of rescuing craft. Thousands of persons watched the disaster, which occurred at 5:40 p. m. As the explosion occurred, they dashed, panic stricken, in all directions, for fear of being enveloped in the descending wreckage, which fell just over the Victoria pier. Breaks in Two.
It was while the ZR-2 was cruising over Hull that she was seen to emerge from the clouds and suddenly break in two. One portion appeared to rise in the air. The other descended slowly and fell into the Humber. One explosion occurred as the ship was falling and another after it touched the water. The wreckage floated on the waters about 200 yards from the riverside quay and continued to burn.

Burning fragments of the airship belched dense columns of smoke and flames which extended for hundreds of feet along the surface of the water. Eye witnesses saw at least four men descend from the burning ship by parachute. Three men were seen hanging from one parachute.
Tugs and other crafts of all kinds put off from the shore for rescue work immediately after the disaster was witnessed. Simultaneously a corps of ambulances dashed to the pier and took aboard members of the crew to the infirmary as soon as they were landed.
The explosions in the big dirigible were of such force as to wreck many of the windows of store fronts in the center of Hull.

High Officers Abord.
When the ZR-2 started on her trial flight from Howden, Tuesday, she had on board Commander Louis H. Maxfield of the United States navy, who has been designated by the navy department to bring the ZR-2 from England to the United States; Brigadier General S. M. Maitland, the British air marshal; Colonel Campbell, who supervised the work of designing the dirigible; five other American officers, seven engineers and four riggers, in addition to the regular British crew.

The ZR-2 was the largest dirigible ever built, the dimensions being as follows: length, 695 feet; diameter, 85 feet; capacity, 2,700,000 cubic feet; total lifting capacity, 33 tons.
The aircraft was operated by six engines. She was estimated to have a cruising rate of 60 miles an hour, giving a capacity to make an average of 600 miles of uninterrupted flight. She had a capacity for officers and crew of 42 men. The gasoline supply was 16,000 gallons. It was estimated that she would cross the Atlantic in 72 hours.

Powerful Wireless.
The huge aircraft had four gondolas suspended from the frame-work. These provided sleeping accommodations for officers and crew and an electrical apparatus for cooking meals. Her wireless set was expected to keep the monster craft in contact with both shores of the Atlantic and to have a radius exceeding 2,500 miles.
Seen in flight the ZR-2 closely resembled her sister ship the R-34, with a bewildering confusion of aluminum girders, rows of gas bags and a miscellany of guy wires, counter valves, pipes, swivels and hinges. A telephone system connected the entire ship so that the pilot at the wheel was in direct communication with every part of the craft. Electric lights kept the craft brilliantly illuminated.

Tells of Defects.
A London dispatch of Sunday last quoted The Observer as asserting that during the first trial of the ZR-2, a tendency of the giant dirigible to "lump" developed and that an inspection revealed the fact that certain girders had bent and that lattice work had buckled under the strain. Remedial measures were taken, the newspaper said, including considerable reinforcement of the frame work along much of the airship's length. In addition to the

SIR SAM HUGHES DIES IN CANADA

Former Minister of Munitions
Victim of Pernicious
Anemia.

[BY ASSOCIATED PRESS.]
Lindsay, Ont., (Sir Sam Hughes, former Canadian minister of munitions and long a figure in the political life of the dominion, died at his home here early Wednesday.

Pernicious anemia, from which he had suffered since his return from Europe last winter, caused his death. Sir Sam had been a minister of the dominion for many years, but his times of greatest prominence were during the war, when he was minister of the military forces of the British Empire in the great conflict.

He was appointed minister with the rank of major-general soon after the beginning of the war and thereafter devoted his energies to turning over Canada's resources in men and munitions to the victors. He was a member of the House of Commons in 1919. Sir Sam went to Europe where he made a tour of the sectors created by Canadian troops and was elected a Knight Commander of the Order of King George V. His resignation from the office of minister of munitions, at the request of Sir Robert Borden, prime minister, followed long-contested action with his colleagues. An investigation conducted at Sir Sam's request, into charges that he had made profits from army contracts, completely exonerated him.

Editorial Newspeople.
To lessen Canadian losses in the war and to promote greater efficiency, Sir Sam at one time proposed a Canadian war council, organized on the lines of the British War Council, and to be headed by the Canadian government, however, held that there should be an overseas minister of military affairs, and this scheme, which would have abolished much of Sir Sam's power, eventually led to his retirement.

General Sir Sam Hughes was born in Darlington, Ont., Jan. 8, 1853, and received his education in the public schools and Toronto University. Afterward he lectured on English literature and history in Toronto. He was a member of the Ontario legislature and was elected to the House of Commons in 1896. He was a member of the House of Commons in 1896. He was a member of the House of Commons in 1896.

As a liberal-conservative he was a member of the Canadian house of commons from 1892 to the time of his death. He was always deeply interested in military affairs and in bringing about the closest possible affiliation between Canada and the British Empire, and many years before the war, visited New Zealand and Australia to induce them to prepare to aid Great Britain in her wars.

Serves in Africa.
During the war he served in Africa as commander of a mounted brigade. As a young man, he took part in the suppression of the Fenian raid of 1870.

His second wife was Mary E. Burk, of West Durham, Ont. His son, Garnet B. Hughes, served in the Canadian Expeditionary forces as a major general.

Chamber Will Cut Down Its Office Expense

Informing the Board of Directors of the local Chamber of Commerce that he believed his salary of \$5,000 is a burden to that body under present conditions of finances, Lucian O. Holman, manager of the Chamber, offered his resignation at a meeting of the board Tuesday. It was refused on the grounds that other methods could be followed to cut down expenses.

In presenting his resignation, Mr. Holman told the board that the only solution would be to cut down the present staff of the Chamber. The board decided to do the latter.

This action followed the report of the finance committee, appointed some time ago at the request of Mr. Holman to check up the books and revise the budget. This committee, it is reported, found that the Chamber was overpaid.

The following people from out-of-town attended the funeral: R. B. Bartley, Para, N. D.; Mrs. Mabel Duthie, Ayer, N. D.; Mrs. Mabel Duthie, Ayer, N. D.; Mrs. Lillian Hibbard, Merrill; Mr. and Mrs. V. W. Fancher, Clintonville; Mr. and Mrs. R. W. Fancher and daughter, Green Bay; Mrs. Clara Crouse, and Mrs. Charles Harde, Beloit.

TELLS OF EARLY DAYS
ALONG ROCK RIVER

Reminiscences of early days and scenes on Rock river then compared to the present day, were parts of the speech made by P. P. Starr, Janesville, at the picnic of the Old Settlers at Honeoyah park, between Beloit and Rockford, Wednesday afternoon.

He told many incidents of early life in the Rock River valley and gave incidents in the lives of the famous statesmen who have come from Wisconsin and Illinois, notably Miss Frances Willard and Abraham Lincoln.

Judge Fred Carpenter, Rockford, gave the main address of the afternoon.

LET P. O. LIGHTING
CONTRACT THIS WEEK

Contract for the installation of the new 5000 lighting system at the Janesville postoffice will probably be let this week, the time for bids closing at 2 p. m. Thursday. The present system is inadequate. A contract will also be let Aug. 26 for the installation of a buzzer system to connect the postmaster's office with the other departments. This is expected to save much shoe-leather.

MC ADOO OPPOSES FUNDING MEASURE

Harding Statement Sharply Criticized by Former Director General.

(By Associated Press.)
Washington.—Disapproval of the administration's railroad funding bill recently reported to the senate interstate commerce committee was expressed by William G. McAdoo, former director general of railroads, in a letter presented to the senate Wednesday by Senator Stanley, democrat, Kentucky, who requested Mr. McAdoo's views after the committee refused to hear him.

The government is not "morally and legally bound," as stated by President Harding, to fund the \$750,000,000 of the railroads over the government for additions and betterments, Mr. McAdoo asserted. He declared, "the president must have been misled into making such a statement," adding that the law provides for the funding only of "the remaining indebtedness" of the railroads, which he calculated was \$263,000,000.

Payment on this balance, Mr. Mc-

Adoo said, may be deferred 10 years by the railroads, provided satisfactory security were given and six per cent interest paid.

"This is the kind of settlement the law now authorizes and contemplates," Mr. McAdoo said, adding that when the roads were returned to private control they owed the government \$1,144,000,000 for additions and betterments, of which \$881,000,000 already has been extended for a long period. He argued that before any further advances were made, the railroads be required to abandon the "inefficiency of labor" claims amounting, he estimated, to about \$500,000,000.

"Stripped of confusing non-essentials, what is now proposed is that the government shall wait 10 years for \$750,000,000 of the railroads over it for betterments and improvements and pay immediately \$263,000,000 of the railroads on account of claims for alleged under maintenance, etc., taking from the 180 or more railroads involved, with their varying degrees of financial responsibility, such securities as they may be able to provide—securities which in many instances may not be adequate to protect the government against loss."

CHARLES PLANNING TO REGAIN THRONE

Plots With Admiral Horthy for Restoration of Crown in Hungary.

(By Associated Press.)
Paris.—Former Emperor Charles has planned with Admiral Horthy, the Hungarian regent, a restoration of the crown in Hungary, says the Geneva correspondent of the Journal.

The return of King Constantine to Greece is declared to have been made the precedent in the scheme for Charles' resumption of royal status. The royal couple in Hungary, it is ascertained, was the intermediary between Charles and the regent.

Hungary will appear at the meeting of the assembly of the League of Nations in Geneva next month and ask for admission, says the correspondent. In the event this appeal is granted, the Hungarian parliament would be dissolved and the government would call for an election in which the dynastic question would be the principal issue.

CONGRESS AGAIN IN FINAL TANGLE

Senate Tied Up in Last Minute Legislation by Group Activity.

By DAVID LAWRENCE.
Copyright 1921, by Janesville Gazette.
Washington—Congress is in a jam, as usual on the eve of an adjournment or recess. Again it is demonstrated that the house, with its large membership, can dispose of public business rapidly, while the senate, with its practically unlimited debate, is at the mercy of small groups. Filibusters and the threat of the same tactic up legislation at the last minute in the senate, and that's why administration leaders abandoned all hope of passing certain bills.

They had hoped to get through before the recess which begins this week and lasts until the 30th. The last measure which President Harding and Secretary Mellon requested passed, and the negotiations might be begun with the allied powers to arrange for payment of principal and interest on the ten billion dollars they owe the United States.

Men like Senators La Follette and Borah wanted to ask questions about it and since protracted debate was inevitable, it had been set aside. The bill to enable the war finance corporation to handle the emergency in the railroad situation by paying large sums to the railroads which have been shut down as war claims, is also sidetracked. The money was to have been spent by the railroads in buying equipment and might have given business a whole new general stimulus this fall. Congress, however, influenced by the agricultural group which wants a reduction in freight rates before helping the railroad, was unable to get the legislation through. Of course the house passed the bill and cleared up its slate nicely but in the senate the chances of a filibuster against the railroad bill made it seem wiser to postpone consideration of it until after the recess.

Anti-Beer in Senate
The real stumbling block, however, has been the so-called anti-beer bill. The house passed the conference report substantially as the Anti-Saloon League leaders wanted it. But in the senate great constitutional objections have been raised wherein the fourth amendment is held to conflict with the eighteenth amendment. The beer tax faced temporary defeat. The friends of beer have this advantage in a postponement: If the bill isn't considered until after the recess, regulations will have been issued and while by the treasury department permitting the manufacture of beer for medicinal purposes. Once that regulation is made the chances of defeat are slim.

The only bill which has been certain of passage is the bill enabling the war finance corporation to loan large sums of money for agricultural export organizations. The farmers have had their way this session, though the manufacturing and business interests still wait action on the tariff and revenue bills.

To Write a Tax Bill
Of course the object of the recess is to enable the senate finance committee to look hearings and write a tax bill. The argument was wisely made that unless the senate recessed and gave members of the senate finance committee a chance to look into the tax bill there wouldn't be any new revenue law and the old one would have to be re-enacted. The senate has been in session only a few months but the usual routine of a new administration have been augmented this time by the clash of interests between the eastern and western republicans. The latter have betrayed the strategy and have managed to get a consideration for most of their bills, but the easterners have not had effective leadership.

Tax Bill Priority
As a consequence there is an admission now that much more progress would have been made if the tax bill had been given priority in both houses and if President Harding had insisted upon such priority. Congress is glad of a chance, however, to leave the writing of the tax bill in the senate finance committee and get away on a brief vacation. The month's rest will be a good investment for the country because it will give members a chance to hear from the taxpayers and particularly of the impatience of the people for tax reductions. It will assist in putting individual senators in a better humor. There has rarely been a time when so much bitterness and personal feeling was evident in the cloakrooms. It is not confined to one party but is an evidence of what happens when one individual or group gets behind pet pieces of legislation and resists the obstructiveness of another individual or group.

Not a Happy Family
The senate hasn't been the happiest family these midsummer days—and a breath of outside air away from the national capital may bring the seagulls back here in much better spirits and with more of an idea of the demands of public opinion. The recess superficially looks like delay. Ultimately it means substantial progress.

Protect Your Clothes with a Good Washing Machine and Good Soap

There is no good soap for your clothes in such handy form as—

KIRK'S AMERICAN FAMILY WASHING MACHINE SOAP CHIPS

The money you've put into your excellent washing machine, and the money you've paid for your nice washable clothes is largely wasted if you use cheap laundry soaps, containing alkalis, bleachers and other impurities that destroy the fabric. Kirk's American Family Washing Machine Soap Chips, being absolutely pure and neutral, wash more safely and quickly, make your washing machine a real benefit, and leave your clothes—even the most delicate—unharmful, and so clean and sweet smelling.

BRINGING UP FATHER

Organized Ball of Little Value Says Chi Paper

Chicago.—Declaring that an active doubt existed as to the value of professional baseball in America, the Chicago Tribune Wednesday announced on its editorial page that it had curtailed its baseball reports in favor of other sports, particularly amateur games.

"The Tribune is down to about a half column for games in which the home team plays and to a bare statement of vital statistics regarding other clubs," the announcement said.

"That is enough."

"Two or three hours in a ball park do not take anything off the waste line of the spectators or add anything to their amusement. We suit admit that professional baseball is a stimulus for boys, but journalism has over fed it with space."

Amateur Sports Best.

"Amateur sports seldom produce the ability of professional sports but they produce sound citizenship. Americans are not good gymnasts. They do not seem to have the patience of the collective habits, which permits Germans, Bohemians, Swedes and other peoples to improve national physique by organized exercise which are not games."

The Englishman, who has leisure, keeps himself fit by playing tennis. Probably by paying more attention to the sports generally available to people a newspaper can do something to increase the use of sports as recreation and exercise."

RUTH SORRY HE HIT 54 HOMERS IN 1920

"Ruth is sorry that he extended himself and hit so many home runs last year."

This statement was made Tuesday by Dr. H. N. Ophiant, Frankfort, Ind., who says he is well acquainted with the King of bats. Dr. Ophiant is visiting relatives here.

The theory is that Ruth went so far in his mark of 1920 that it has made him stretch considerably to get back to his normal position. But in the doctor's opinion, the Bambino will get there. A predilection is made by the "medic" that Beckenbaugh will become manager of the Yankees next year.

"Ruth is the logical choice," he says. "Huggins is too much of a one head and there are times when his men will do nothing for him."

Pin Meeting to Prove Interesting

Suggestions that may make or break bowling in Janesville, at least one of which will be starting to the ranks of the pin game, will be brought out in the meeting of the Janesville Bowling association to be held at the City Hall at 8 o'clock Wednesday night. The session has been called by President Harry V. Ross in preparation for the 1921-22 season.

The meeting is causing considerable conversation in local bowling circles. Following the unfortunate situation with which the last season closed, every effort is being taken to start the new year with the bowlers forgetting their wrangles of a year ago.

Reorganization of the city league is expected. The industrial league will undoubtedly remain as it is. Whether business conditions will have any handicap for the game is a matter of conjecture.

LODGE NEWS

Regular meeting of Carroll Council, No. 536, Knights of Columbus, will be held at 8 p. m. Thursday at the club rooms on South Jackson street.

Reminiscences of early days and scenes on Rock river then compared to the present day, were parts of the speech made by E. P. Starr, Jansville, at the picnic of the Old Settlers at Monongah park, between Beloit and Rockford, Wednesday afternoon.

Joe told many incidents of early life in the Rock River valley and gave incidents in the lives of the famous statesmen who have come from Wisconsin and Illinois, notably Miss Frances Willard and Abraham Lincoln.

Judge Fred Carpenter, Rockford, gave the main address of the afternoon.

Contract for the installation of the new \$600 lighting system at the Jansville postoffice will probably be let this week, the time for bids closing at 2 p. m. Thursday. The present system is inadequate. A contract will also be let Aug. 26 for the installation of a heating system to connect the postmaster's office with the other departments. This is expected to save much shoe-leather.

Mr. and Mrs. John Hemming and the Misses Mary, Genevieve and Winifred McGinley, Prospect avenue, are home from an outing at Charley Bluff, Lake Koshkonong, at the Sherman cottage.

Miss L. A. Downs, Prospect avenue, has returned from Chicago, where she has been visiting friends for the past two weeks.

Miss Margaret Roberts, Madison street, is spending two weeks in Chicago with friends.

Chamber Will Cut Down Its Office Expense

Informing the Board of Directors of the local Chamber of Commerce that he believed his salary of \$5,000 is a burden to that body under present conditions of finances, Lucian O. Holman, manager of the Chamber, offered his resignation at a meeting of the board Tuesday. It was refused on the grounds that other methods could be followed to cut down expenses.

In presenting his resignation, Mr. Holman told the board that the only alternative would be to cut down the present staff of the Chamber. The board decided to do the latter.

This action followed the report of the finance committee, appointed some time ago at the request of Mr. Holman to check up the books and revise the budget. This committee, it is reported, found that the Cham-

MAY FINISH ROAD TO EDGERTON OCT. 1

Hope for Good Weather Next Month—No Paving Through Indian Ford.

Work on the Janesville-Edgerton concrete highway, with the exception of a three-quarter mile stretch through Indian Ford, will be completed between October 1 and 15, it is predicted by County Highway Commissioner Charles E. Moore.

Mr. Moore's construction gang is now within one and one-half miles of the completion of the stretch from Janesville to Indian Ford and with fair weather this section should be completed before September 15.

Sand and gravel from the Henry Cox pit is now being used in the concrete to complete this stretch without a new set-up of pit machinery.

"It won't take much longer to complete the stretch from Indian Ford to the mile of 500 to 600 feet a day," stated Mr. Moore. "We laid 453 feet last Friday up until the time the storm hit."

Now the stretch from Indian Ford to the mile of 500 to 600 feet a day will be followed by a transfer over to the west side of the river to lay a one and one-quarter mile stretch to Edgerton.

It is expected that after paving a three-quarter mile stretch through Indian Ford owing to the dangerous hills and curves on either side of the river, plans are made to eliminate the bad curves and cut down the danger at the foot of the hill on the west side of the river. The balance of the paving can be completed then.

VOICE OF THE PEOPLE

Editor Gazette: Gazette, a week or so ago that the young lady from the blind institute, who was the recent victim of such an outrageous assault, has left town, and that these boys who planned and carried out the attack, could probably never be brought to trial, or made to answer in any way for their wickedness.

I read this article, and have been wanting to see whether any one would have humanity enough to say a word for the girl's sake, or justice enough to demand that some sort of punishment be meted out to such young outlaws, it not in the nature of restitution for the injured girl, then, at least, for the sake of protection for other girls from such degenerates.

Now all parties figuring in this case are absolute strangers to me, therefore, so far as anything personal is concerned, the affair is immaterial to me.

But, from my point of view, the question is just this—If this girl is innocent and, because of the shame and notoriety always connected with such a scandal, she has left Janesville disgraced, brokenhearted, and reluctant to face her assailants and relate the filthy story of her outrage in public court, then, with a few kind words, she would be helped in an ordeal would mean to a decent minded girl, my most intense indignation, and my heart's dearest sympathy go out to her.

Now, what is it that these boys go "scot free," what is it that hinders them from repeating their dastardly performance at the first opportunity, and as long as they are not allowed to get away with it, are there not others who, emboldened by such senseless and dangerous leniency, may decide to follow their example?

Of course, we always have with us these people who, when anything of this sort comes up, never fail in their repetition of that old-brothered, "Oh, well, it is no bad thing, a decent girl, it never would have happened."

Has it ever occurred to such sinners that minds that "it" had been decent boys, it certainly never would have happened?

It seems to me that it is high time in the history of mankind that each individual, whether man or woman, should be held responsible for his or her own individual acts.

Whenever that is done, (and when will we ever have anything resembling that), then, if it is done, then and then only will there be fewer "troubles," fewer divorces, fewer outrages, and, in the ascending proportion, will there be greater respect for law, greater amount of decency, and a chance for at least, some measure of peace and happiness for us all.

Janesville mothers, do you want to see the cheeks of your young daughters being the next victims of these street corners, the vampires, who are allowed to go their way unmolested to plan and to carry out their dastardly and heart-breaking social crimes without so much as a word of remonstrance?

I make the motion that the girl in this case be found, and prosecuted, these despicable offenders, and furthermore, I suggest that it be made public known that every decent minded, justice loving woman in Janesville did her best for her, both morally and legally.

Come, Mothers, Club Women, every one who stands straight and strong for decency, for fair play, what shall be done about this?

HUNGER-HINDERS RELIEF WORKERS IN RUSSIA FIELDS

London.—Efforts of employed workers in Russia to help the famine sufferers are hindered by the fact that they themselves are weakened through lack of proper food, says a Moscow dispatch to the Daily News.

The famine now is paralyzing the strong and the weak alike, it adds, and many men for whom employment is available are too weakened to do anything, except to resist starvation.

It is estimated by the correspondent that the workers in the suburbs of the larger towns are receiving only 30 per cent of the allowed rations.

Operations of the Volga River fleet, the chief means of carrying food to the famine areas, are continued with the greatest difficulty, because the crews are half starved.

In Samara, the people are eating all the grass that escaped the drought and acorns are regarded as a luxury.

"PUR-TEE POLL-EE GOES ON RAMPAGE

Uttering for hours many sounds like a cure free boy on a rampage, whistling at times to relieve the monotony, a young parrot has disturbed the neighborhood of Walker and Moore streets since early Sunday morning. The late sleeper slept not at all. The early riser went forth to see what they could see. The parrot was perched in the top of an elm near the residence of E. D. McQuinn. He was dislodged and flew away, only to return later. Unfraid and heedless of the clattering children and curious older persons at the foot of the tree, he refused to respond to captivity. He was still there Monday evening and anyone who came to the street will be able to locate the bird by visiting the block on Walker street between Milton and Gardfeld.

Darlington Man Found Hanging

Darlington—Louis Kline, a constable who has resided here for many years, was found Tuesday morning hanging from a rafter in the barn. An inquest was to be held Wednesday. It is generally believed he committed suicide. He was 55 years old. Despondency is thought to have been the cause.

FATHER OF MOTHERS' PENSION LAW HERE ON TOUR OF STATE

Judge Henry Neil, Hinsdale, Ill., called the "father of mothers' pensions," stopped off in Janesville Tuesday, on his way to Madison to confer with officials there concerning the mothers' pension law in this state, which he states, is a good one but does not provide enough for the mothers.

Judge Neil has traveled, not only over all the United States, appearing before legislatures in each state for the mothers' cause, but has just returned on an extensive tour of Europe, where he investigated conditions and made efforts to get laws passed. He appeared before the House of Lords while in England and states that he has just been in Africa.

Illinois was the first state to pass the Mothers' Pension law, and now 40 states have enacted it with all their increasing the amount of the pension. The law here is still to remain under the mother's care, and not be removed to some sanitarium. Judge Neil will visit other cities in the state, investigating conditions.

LAFAYETTE COUNTY OPENS BIG FAIR

Darlington.—The big fair of Lafayette county opened here this week with larger crowds and more exhibits than ever before. Tents have been erected to accommodate the overflow. The fair program is being carried out very successfully. The fair also marks the opening of Darlington's new road paving project—a street of cement extending from Main street to the fair grounds.

PEANUTS BAGG AT 10 CENTS A POUND

PEANUTS! Peanuts! All you want for 10 cents. This is actually true again unless one does not consider a pound of peanuts enough. A rush is being made here for peanuts. An official would mean to a decent minded girl, my most intense indignation, and my heart's dearest sympathy go out to her.

Now, what is it that these boys go "scot free," what is it that hinders them from repeating their dastardly performance at the first opportunity, and as long as they are not allowed to get away with it, are there not others who, emboldened by such senseless and dangerous leniency, may decide to follow their example?

Pour Concrete for Skeleton of New School

With a miniature saw mill, a tower 125 feet high, two men working, and the wooden frames almost completed for the pouring of concrete, fast progress on the new high school building is being made by J. P. Cullen.

J. P. Cullen, just back from a trip to Minneapolis, states that the pouring of concrete for the first floor will start next week. Within two days after that, when the concrete has settled, workmen will build frames for the second floor, and by Oct. 1 it is expected the concrete work will be advanced to such a stage that the brick, which is yet to be selected, may be laid on the first floor.

With weather the past two weeks has hampered the work considerably. Mr. Cullen said.

Machinery is playing a big part in construction. A huge box to hold 50 cubic yards of gravel, and sand has been erected near one side of the building, and a frame for the concrete toward the top of the building is being erected.

With the bank of the river extended 20 feet, trenches for the erection of the building are being made. With good weather prevailing, Mr. Cullen stated that he hopes to have the roof on the building by the first of the year.

MC ADON OPPOSES FUNDING MEASURE

Harding Statement Sharply
Criticism by Former Di-
rector General.

[By Associated Press.]
Washington.—Disapproval of the
administration's railroad funding
bill recently reported to the senate
interstate commerce committee was
expressed by William G. McAdoo,
former director general of railroads,
in a letter presented to the senate
Wednesday by Senator Stanley, dem-
ocrat, Kentucky, who requested Mr.
McAdoo's views after the committee
refused to hear him.

The government is not "morally
and legally bound," as stated by
President Harding, to fund the \$750,
000,000 railroads, over the govern-
ment for additions and better-
ments, Mr. McAdoo asserted. He
declared, "the president must have
been misled into making such a
statement," adding that the law pro-
vides for the funding only of "the
remaining indebtedness of the rail-
roads," which he calculated was
\$282,000,000.

Payment on this balance, Mr. Mc-

CHARLES PLANNING TO REGAIN THRONE

Plots With Admiral Horthy for
Restoration of Crown in
Hungary.

[By Associated Press.]
Paris, France.—King Charles has
planned with Admiral Horthy, the
Hungarian regent, a restoration of the
crown in Hungary, says the Geneva
correspondent of the Journal.

The return of King Constantine to
Greece is declared to have been made
the precedent in the scheme for
Charles' resumption of royal status.
The papal nuncio in Rome, it is as-
serted, was the intermediary be-
tween Charles and the regent.
Hungary will appear at the meet-
ing of the assembly of the League of
Nations in Geneva next month and
ask for admission, says the corre-
spondent. In the event this appeal is
granted, the Hungarian parliament
would be dissolved and the govern-
ment would call for an election in
which the dynastic question would be
the principal issue.

CONGRESS AGAIN IN FINAL TANGLE

Senate Tied Up in Last Minute
Legislation by Group
Activity.

By DAVID LAWRENCE.

Copyright 1921, by Janesville Gazette.

Washington—Congress is in a jam.

On the eve of an adjournment

of recess, again it is dominated

by the House, with its large

majority, can dispose of public

business rapidly, while the Senate,

with its practically unlimited debate

is at the mercy of small groups.

Fillibusters and threats of the same

tie up legislation at the last minute

in the Senate, and that's why

administration leaders abandoned all

hopes of passing cer-

tain bills which

they had hoped to

put through before

the recess which

begins this week

and lasts until Oct.

1. The last meas-

ure which President

Harding and

Secretary Mellon

requested passed,

is a bill for negotia-

tions with the allied

powers to arrange for

payment of principal

and interest on the

ten billion dollar

loan to the United

States, which has

been shelved until after the

recess. Men like

Senators La Follette

and Borah want to ask

questions about it

and since protracted

debate was inevitable,

Side-track Railroad Bill

The bill to enable the

BRINGING UP FATHER

Organized Ball of Little Value Says Chi Paper

Chicago.—Declaring that an active doubt existed as to the value of professional baseball in America, the Chicago Tribune Wednesday announced in its editorial page, that it had carried its baseball reports in favor of other sports, particularly amateur games.

The Tribune is down to about a half dozen for games in which the some team plays and to a base statement of vital statistics regarding other clubs, the announcement said. "That is enough."

Two or three hours in a ball park do not take anything off the waist line of the spectators or add anything to chest measurement. We still admit that professional baseball is a stimulus for boys, but journalism has over fed it with space.

Amateur sports best. "Amateur sports should produce the ability of professional sports but they produce sound citizens. Americans are not good gymnasts. They do not seem to have the patience of the collective habits, which permits Germans, Bohemians, Swedes and other peoples to improve national physique by organized exercise. Which are not games."

The Englishman, who has leisure, keeps himself fit by playing games. Probably by paying more attention to the sports generally available to the people, a newspaper can do something to increase the use of sports as recreation and exercise."

NICK ARIE TAKES TRAP SINGLES TITLE (BY ASSOCIATED PRESS.)
Chicago.—Nick Arie of Kalamazoo, Michigan, won the American amateur championship at single targets in the Grand American Handicap trapshoot here Tuesday. He broke 158 of a possible 200 targets.

200 GOLFERS START WESTERN TITLE MEET
Cleveland.—Nearly 200 of America's best professional golfers played the first 18 holes for the open championship of the Western Golf association over the course of the Oakwood club Wednesday, with Bobby Jones of Atlanta, the only formidable amateur competitor for the title now held by Jack Hutchinson of Chicago.

A team of 12 American born golf professionals, led by Mike Brady of Detroit, on Tuesday defeated a dozen foreign born experts captained by Jack Hutchinson of Chicago, British open champion.

Hundreds Join Playground Picnic at Crystal Springs

Gathering in droves at the several playgrounds, hundreds of boys and girls were piled into automobiles at 5 o'clock Wednesday morning and carried off to Crystal Springs where the first playground picnic and field meet is being held Wednesday. A large number of parents went along to join in the outing.

A program of 32 field events was started as soon as the children had been transported to the merry-making grounds. More than 250 children were ready to part in competition for the 150 prizes.

Like in the swimming meet of last week, the school spirit was high. Urged on by the cheer of a gun for the school getting the largest number of points, the rosters yelled for victory.

RUTH SORRY HE HIT 54 HOMERS IN 1920
"Ruth is sorry that he extended himself and hit so many home runs last year."

This statement was made Tuesday by Dr. J. N. Oliphant, Frankford, Ind., who says he is well acquainted with the King of Sen. Dr. Oliphant is visiting relatives here.

The theory is that Ruth went so far in his hitting that it has made him stretch considerably to get near it this year. But in the doctor's opinion, the Bambino will get there.

A prediction is made by the "medic" that Beckenbaugh will become manager of the Yankees next year.

"Ruth is the logical choice," he says. "Huggins is too much of a sure-head and there are times when his men will do nothing for him."

Pin Meeting to Prove Interesting

Suggestions that may make or break bowling in Janesville, at least one of which will be startling to the ranks of the pin game, will be brought out in the meeting of the Janesville Bowling association to be held at the City Hall at 8 o'clock Wednesday night. The session has been called by President Harry A. Tuck in preparation for the 1921-22 season.

The meeting is causing considerable conversation in local bowling circles. Following the unfortunate situation with which the last season closed, every effort is being taken to start off the new year with the bowlers forgetting their wrangles of a year ago.

Reorganization of the city league is expected. The industrial league will undoubtedly remain as it is. Whether business conditions will have any handicap on the game is a matter of conjecture.

MUST PAY BOXERS PERCENTAGE IN N. Y.

Buffalo, N. Y.—The state athletic commission's ruling that boxers in main events must be paid on the percentage basis, will necessitate the revision of plans by the Queensberry Athletic club, for a bout here between Jack Dempsey and Bill Brennan in November. Brennan signed articles in New York, Tuesday night, promising to pay a percentage basis, although the terms are not known here. Previously, officials state, he had been offered \$20,000.
